WHO I AM!

I began working in Food & Beverages at age fourteen. My mother obtained a special permission for me since I was underage and worked in a popular hotel as a dishwasher and cleaner. Little by little I began learning about the culinary arts. Fortunately I had the a great teacher and learned the techniques that started me off in my career as a chef. During all this time I have constantly improved and learned new things. My greatest joy and satisfaction is to make my guests happy with everything I prepare. I love what I do and cooking is my passion. Enjoy!
